

TARPAN GLASSES

Technology available for licencing

•Current problems statement -

currently procedure of tarpana need to make Udad dal(black gram) flour dough and then apply it around eyes then we apply that dough around eyes, after that we pore medicinal material in over eyes. this results to take more than hours for 1 patient. after completing the procedure , dough we use is wasted then medicine which we pore is also got contaminated so that's also wasted .and hospital bed is occupied for more than an hour.

•IP Details-

Patent No. : 545912

Application No. : 202021004558

Date of Filing : 02/02/2020

Patentee : Dr. Mr. Prashik Soma Wagh

•Technology-

Tarpan glasses will be easy to use easy to apply equipment.it will be easily attached and vacuum sealed so there will be no problem of leakage. we can use it repeatedly for same patient. no need to use dough, flour and waste the food, just wear the tarpan glasses and pore the medicine.it will save time as it can complete the process of tarpan within 30 minutes.
